

## ME-Q340 Waterproof QR Code Scanner

### Strong reading ability

It can recognize the QR code and one-dimensional code on the screen of the mobile phone, support the enhanced engine mode, and can scan and read the code when the screen of the mobile phone is dark.

### Paper code reading ability

The main QR codes and various one-dimensional codes printed on the paper can also be read.

### High speed reading

Different mobile phone LCD screens generally have different contrast, color, and degree of reflection, which can be read as long as the code system is within the reading window.

### IP 65

This is a outdoor rate scanner. It is IP65.
