Ticket Vending Machine

The Ticket Vending Machine

is a modern device designed for automated ticket sales in public areas like stations, parking lots, and sports venues. It features a built-in payment terminal and printer, offering quick and convenient service for both cash and card transactions. Its robust construction and intuitive interface ensure ease of use, while the option to integrate with access control and monitoring systems enhances security and operational efficiency. This makes it an ideal solution for streamlining ticket sales in various environments.
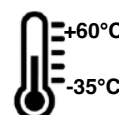

21.5"		**110V-220V**	**RAM**	**IP 65**	**+60°C / -35°C**
TOUCHSCREEN	BSPEED COMPUTER	POWER SUPPLY	8 GB RAM	PROTECTIVE LEVEL	TEMPERATURE RANGE

Dimension	1898mm*430mm*210mm
TEMPERATURE	+60°C/-35°C
Touchscreen	21.5" touchscreen
Computer Components	EPIC-E641 8GB RAM RX831-H120PRM2
Power Supply	100V-240V 50/60Hz
